COMMENTS IN SUPPORT OF RULE MAKING

Comes now Radio Representatives, Inc. (RRI) by its corporate secretary and respectfully submits comments in the FCC RM-8305 to amend the table of assignments §73.202(b) as follows:

Location	Add	Delete
Templeton, CA	263A	None

In support of its comments RRI states the following:

In response to a Petition for Rule Making (PRM) filed by RRI and adopted on August 9, 1993, the FCC issued a Notice of Proposed Rule Making (NPRM), which was released August 26, 1993, and requested comments on or before October 18, 1993. These comments are filed pursuant thereto.

COMMENTS

Within the NPRM Note 2, the FCC requested RRI to rectify the omission of a verification by the petitioner, Gloria Dawn Patterson, corporate secretary. A copy of the original PRM amended which includes a verification, is attached

No. of Copies rec'd
List ABCDE

044

as Attachment #II. This attachment is filed to correct the verification deficiency and is incorporated herewith as an integral part of these comments.

In addition to the content of Attachment II, enclosed also is Attachment I with additional information in support of allocating FM Ch. 263A to Templeton California. The contents of Attachment I were obtained from the Templeton Chamber of Commerce. Exhibit A of Attachment I gives a profile of the Templeton Community, documenting the growth in population from 1970 to 1980 of 64%, reaching a population of 1800 in 1985. The U. S. Census Bureau reports in 1990 a population of 2887, a growth from 1985 to 1990 of 160.39% (1087 persons).

Public Service utilities are provided to the community of Templeton, a U. S. Census Designated Place (CDP), by the "Templeton Community Services District." These services include water pumped from four (4) wells; fire protection by the local volunteers of eighteen (18) firemen and three (3) fire trucks, and arrangements with the California Department of Forestry for additional crew and trucks; electricity, gas, and telephone provided by Pacific Gas & Electric (PG&E), Southern California Gas Co. (SCGC), and Pacific Bell Telephone (PAC-TELL). Other services include garbage disposal, lighting, cemetery, and public schools. The U. S. Post Office and Greyhound Bus are located in the Central Business District. See Attachment I Exhibit A, Pages 1 & 2.

Exhibit B of Attachment I lists the many churches, schools, and service clubs serving the Templeton community, as well as a map showing the community area and its close proximity to U. S. Highway 101, a major U. S. North-South Federal highway. The regional hospital "Twin Cities" that serves the North part of San Luis Obispo County is located in Templeton.

Exhibit C within Attachment I gives an historic account of the Templeton Community dating back to 1886, outlining the part played by the community of Templeton and development of the Southern Pacific Railroad (SPRR). Templeton was named after the son of Mr. Crocker, a Vice President of SPRR. Templeton is the only town on the El Camino Real not named after a saint.

Exhibit D of Attachment I lists businesses of the community which are also members of the Templeton Chamber of Commerce. The business community of Templeton consists of seventy seven (77) or more businesses and professional associations, including state and national chartered banks.

This allocation will be the first FM facility assigned to Templeton, CA. Upon allocating FM Ch. 263A to Templeton, RRI will promptly file for a construction permit (CP) and if awarded by the FCC to RRI, will promptly build and operate the station.

These comments are respectfully submitted on behalf of RRI by the corporate secretary, Gloria Dawn Patterson, and I verify under penalty of perjury that the contents herein are true and accurate to the best of my knowledge and belief.

COMMUNITY PROFILE

GENERAL PROFILE

Templeton is a pleasant rural community located midway between Atascadero and Paso Robles in San Luis Obispo County. It was founded in 1886 and has retained much of its historical character. Many of the original buildings are in use and have retained the 1890 motif. Templeton was originally subdivided between 1886 and 1890 and was the Southern terminus of the Southern Pacific Railroad.

ECONOMIC GROWTH AND TRENDS

The population in San Luis Obispo County in 1980 was 155,435, a growth of 47% since 1970. During the same period of time, the Templeton - Atascadero - Paso Robles areas combined experienced a rate of 46% while Templeton alone experienced a rate of 64%. The population of the community of Templeton reached 1,800 in 1985, and is now estimated to be 3,500 with completion of new housing tracts. The state of California experienced only an 18% population growth over the same period of time. Templeton is one of three unincorporated areas in San Luis Obispo County that has land available for development.

CLIMATE

At an elevation of 721 feet above sea level, the climate is mild and smog-free. Prevailing winds are from the southwest and average four miles an hour. Humidity is 31 - 40%, and average rainfall is about 15 inches per year. The average temperature in January is 60° during the day and 41° at night. In July, the daytime high averages 95° with the nights dropping to 55°, thanks to the ocean breeze. The average rainy season runs from mid-October to mid-April with frost occurring occasionally.

COMMERCIAL AND INDUSTRIAL PROFILE

Businesses currently in Templeton include a livestock feed and grain supply, hardware store, livestock auction, veterinary supply, five restaurants, a breakfast inn, donut shop, a bank, window covering shop, a flooring supply, florist, lumber yard, two well drillers, printer, dentist, pharmacy, four real estate offices, two architects, two hair stylists, insurance company, three tack shops, two liquor stores, grocery store, welder, gas station, a wine broker, an auto parts store, plus several other businesses. The 84-bed Twentieth Century Community Hospital is located on the west side of Templeton and serves the entire north San Luis Obispo County. It has facilities for Intensive Care, Coronary Care, surgery, obstetrics and a variety of other services. The Wilshire Hospital is located near the Twentieth Century Community Hospital. The Wilshire

Client RRI, INC/RM-8305Date 9/15/93FCC form Sec. Pg.

RECREATION

Templeton is located 30 minutes from the coast both to the west and south. It is within a 35 - minute drive to Hearst San Simeon Monument. Lake Nacimiento is 22 miles to the northwest. It has over 166 miles of shoreline and offers water skiing, fishing, and camping, as does San Antonio Lake which is 15 miles north of Lake Nacimiento. Five miles to the north is the site of the Mid - State Fair which attracts over 300,000 visitors a year and offers such entertainers as Kenny Rogers, Ray Stevens, Barbara Mandrell, and Tom Jones. Templeton has a three acre, tree covered community park with a ball diamond, bandstand, and a municipal swimming pool, with two more proposed parks. The park is the site of the annual Forth of July celebration and the terminus of the parade down Main Street. Tennis courts are available to the public at the high school. Templeton also hosts the Mid Century Rod Review.

EDUCATION

One elementary / junior high school and one high school comprise the educational facilities in Templeton. Combined enrollment is approximately 833 students with an average teacher to student ratio of 1 to 20.07. Special education programs supplement the K - 12 curriculum. School sponsored organizations include ASB, CSF, and FFA. Athletes compete in the Tri - Counties League. Templeton consistently places high in the standings, and has won several CIF Championships.

Foundation currently operates a 99 bed convalescent hospital with approximately 40 seniors apartment units. Cal Trans, Southern California Gas, Pacific Telephone, the Highway Patrol and Sheriff Station have located their regional headquarters in Templeton. The area is served by three churches and various clubs. Templeton currently has 100 acres of industrial - zoned land located between the railroad and Main Street. The property has easy access to the freeway and is in close proximity to the community services and facilities.

AGRICULTURE PROFILE

Templeton is surrounded by rich agriculture lands. The topography ranges from semi - flat to hilly with clusters of oak trees. Heavy production of almonds, cherries, apples, grains, and dairy products now exist within the area. The most rapidly increasing product is grapes. In the County of San Luis Obispo production of grapes increased from \$356,000 in 1975 to \$10,560,000 in 1983. There are at least eight wineries currently in the Templeton area. Another agricultural product on the rise is horses, both registered and grade animals. Several horse shows are held each year within a short driving distance from town. Just north of Templeton is the scene of both the annual wine and apple festivals.

HOUSING PROFILE

There are in excess of 100 rental units available and Templeton maintains a nearly zero vacancy factor. A 52 unit apartment complex on Las Tablas near the hospital has been so successful that other units are planned adjacent to the existing project. There are currently several housing tracts under construction. Several areas have been subdivided into 1 to 10 acre lots and have attracted a nice cross section of families seeking a rural life style with the normal city amenities at hand.

PUBLIC SERVICES UTILITIES

Sewer, water and fire services are provided by the Templeton Community Services District. Water is pumped from four wells, with a total capacity of 1,100 GPM. There are 1.6 million gallons of storage at 975 feet elevation supplying pressures of 60 to 90 pounds. Fire protection is supplied by a local volunteer force of 18 firemen and three fire trucks. An additional truck and crew will respond to all district fires through contract with the California Department of Forestry, located four minutes from the central business district. Electricity, gas, and telephone services are provided by Pacific Gas and Electric, Southern California Gas Company, and Pacific Bell Telephone Company. Other services include garbage disposal, lighting, cemetery, and public schools. The post office and Greyhound Bus stop are located in the central business district. Cable T.V. is available in selected areas.

HISTORIC TEMPLETON - PAST & PRESENT

Step back in time to the fall of 1886 when C.H. Phillips of the West Coast Land Company sent R.R. Harris out to survey 160 acres south of Paso Robles bordering on the Salinas River. This acreage was to be laid out in business and residential lots and 5-12 acre parcels for a town to be called Crocker, the name of the vice president of the Southern Pacific Railroad. Since Crocker was already a town up north, the name was soon changed to Templeton. Templeton was the name of Crocker's son. This is the only town on the El Camino Real named for a person, other than a saint.

The railroad had decided to run track to this point. Here travelers would take the stagecoach south to San Luis Obispo. The newspapers in San Francisco and other towns of note gave a tremendous amount of editorial support to the new venture undertaken by one of the foremost entrepreneurs of the day. Ads were placed by Phillips in all the major newspapers in the country, attracting buyers from everywhere to this area to attend the land auctions. Within ninety days there were three hotels, three general stores, a drug store, and eighteen saloons. This information comes from a local resident whose family has lived here ever since. The newspaper Templeton Times became a local voice for the development of the city. Legend has it that even the famous James boys visited their uncle here in 1869. Two churches were formed. The Presbyterian church was given the land to construct their building and in 1888, it was dedicated. The Lutheran church constructed their brick building in 1891. Both are still holding services in the same buildings today in the 1990's. Since there was no law enforcement agency, the churches helped keep Templeton law abiding.

In 1897 there was a great fire that burned most of the downtown area, since most of the buildings were made of redwood that had been carted from Cayucos over York Mountain. Also, since the roundhouse for the railroad had moved from here in 1891, the town was no longer booming. The town was rebuilt, but never to the extent that it had been.

Today, Templeton is a growing community with many amenities. The park, dominated by huge trees, with its bandstand and picnic tables is one of the social gathering places all year. Barbeques are held and the children play, and in the summer there is a large pool for everyone to enjoy. The park was donated by the founders of the town to be used forever as a public recreational facility. Templeton also has the distinction of having the regional hospital, Twin Cities Hospital and many medical offices. Twin Cities Hospital has all the latest equipment and a well trained staff. The California Highway Patrol and the California Department of Forestry are located here just off the 101 freeway. An elementary school and modern high school are located in town.

For people who enjoy wine, this whole area promises wonderful times in store. There are several wineries in Templeton and

over a dozen near by. Champagne growers from Spain and France have bought land in the area. York Mountain Winery is over 100 years old and produces many award winning wines. The Pesenti Winery planted the first grapes in 1923, and the owners are justifiably proud to be among the few remaining family owned and operated wineries in California. They, too, have received many medals in the past few years and tourists traveling along Highway 101 have noticed for decades the two billboards advertising the tasting room. Probably more people know of Pesenti than know Historic Templeton exists.

Once again there is a place for the weary traveler to spend the night in town. The Country House Inn is a bed and breakfast inn, furnished with antiques and located in the elegant old home that C.H. Phillips built for his family in 1886. The gardens are lovely with 100 year old trees. The property has been designated a Historic Site by the County of San Luis Obispo.

There are many other old buildings still in use today, some of which are: Hewitt's Hardware, following in the tradition of the old country store. Behind the store is an old wood building that was the original saloon in town. During the great fire the men who were drinking there put the building on big limbs of trees and rolled it to where it stands now. Then they went back to their drinking. The name Petersen still shows on the facade of the hardware store and it is dated 1899.

Some say the original West Coast Land Company office was in the building that is now the office of Joe Elkin's, Architect. A J Spurs Restaurant is located in an old brick building that housed a meat market and a garage. The old smoke house is still out back. Hanson Enterprises occupies the building that was once a hotel. Main Street Grill is in the oldest business building in town that survived the big fire.

The new buildings in town have been constructed to complement the old ones retaining the old west flavor and have the style that will make them landmarks of the future. Take note of the building located on the southwest corner of Main and 2nd Street and the two story building on Main and 4th Street where the Window Affair and other businesses are located.

The Templeton Feed and Grain building is a real landmark. It is the only building really seen for miles away on the freeway. Notice the way it is built with 2" by 6" planks laid one on top of each other. This provides a great amount of insulation from the elements.

Templeton is an ideal place to stop over on the way to Hearst Castle and is located half way between San Francisco and Los Angeles. Anyone who lives here will tell you all the benefits of living in a town with clean air and the peace and quiet of the country. It is on its way to becoming the hub of activity for the future and there are locations available to new businesses who are looking forward to future growth.

ATTACHMENT #II

This Attachment is a copy of the original
"Petition for Rule Making" for Templeton,
California, with the addition of a "penalty
of perjury" statement by Radio Representa-
tives, Inc. (RRI) corporate secretary.

**Before The
FEDERAL COMMUNICATIONS COMMISSION
Washington, D. C.**

In the Matter of)	
)	RM-8305
Amendment of Section 73.202(b))	MM Docket No. 93-238
Table of FM Assignments)	
Templeton, California)	

Directed to: Chief, Mass Media Bureau

PETITION FOR RULE MAKING

Comes now Radio Representatives, Inc., by its Secretary, and respectfully requests that the Commission institute a rule making proceeding to make the following amendment to Section 73.202(b) of the Commission's Rules:

<u>Location</u>	<u>Add</u>	<u>Delete</u>
Templeton, CA	263A	None

In support of this request, Radio Representatives, Inc. states the following:

Exhibit A, an Engineering Statement by Norwood J. Patterson, demonstrates that the requested assignment may be made in compliance with all current Commission allocation standards, including separation requirements, with a transmitter off-set of 5 km North. By granting this request, the Commission need make no other amendment to the FM Table of Assignments. Moreover, operation on Channel 263A licensed to Templeton may be instituted without affecting any existing or proposed station, and will result in the allocation of a first aural transmission service to Templeton. In the 1990 Census Templeton is identified as a census designated place (CDP) with population of 2887 persons. See Exhibit A Page 3.

Pursuant to Section 1.401(d) of the Rules, a draft Notice of Proposed Rule Making is shown in Exhibit B.

Petitioner will apply for Channel 263A if it is assigned, and if authorized will build the station promptly.

WHEREFORE, THE PREMISES CONSIDERED, it is respectfully requested that the Commission amend Section 73.202(b) of its Rules to allocate FM Channel 263A to Templeton, California.

I declare under penalty of perjury that all data herein is true and accurate to the best of my knowledge and belief.

Respectfully submitted,

RADIO REPRESENTATIVES, INC.

**ENGINEERING STATEMENT
of
NORWOOD J. PATTERSON**

**In Support of Petition for Rule Making
For New FM Ch. 263A to be assigned to
Templeton, California**

I, NORWOOD J. PATTERSON, am a consulting radio engineer with Radio Engineering Company, Los Osos, California. Contained herein is demonstration of compliance with FCC Rules & Regulations for assignment of FM Channel 263A to Templeton, California.

I have practiced before the Federal Communications Commission for over 35 years, and my qualifications are a matter of record with the Commission.

A complete computer study was conducted on all channels, looking toward assignment of either a Class B, B1, or A FM facility for allocating to Templeton, California. This study determined that no Class B or B1 facilities could be assigned to Templeton and meet all minimum mileage separation requirements of the FCC. However, this study did demonstrate that a Class A channel could be assigned to Templeton with a transmitter site off-set 5 km to the North. See Exhibit A Page 1a attached. This is the only new commercial FM facility that can be allocated to Templeton meeting current FCC Rules for minimum mileage separation without effecting any other station or allocation.

RADIO ENGINEERING CO.

Consultants

Exhibit A Page iii
Client RRI/Templeton
Date 7/13/93
FCC form _____ Sec. _____ Pg. _____

- 2 -

It is requested that Channel 263A be assigned to Templeton, California. Exhibit A attached demonstrates compliance of the mileage separation with all adjacent and co-channels. This study was compiled utilizing the FCC present rules and FCC Database dated 3/31/93.

The city of Templeton, with a population of 2887 persons, is located in the county of San Luis Obispo (SLO) which has a population of 217,169 persons as verified by the 1990 Census. See Exhibit A Page 3 & 4 attached. The population served from the proposed site is 92,411 persons based on the 1990 Census data within the 60 dBu contour. See Exhibit A Page 5.

I declare under penalty of perjury that the study was made according to FCC Rules & Regulations, and that all data contained herein was either prepared by myself or under my immediate direction and supervision. All data of my own knowledge is true and accurate. All information relied upon is also believed to be true and accurate.
